PRODUCT — CATALOG

The image features a white background with several large, organic, flowing shapes in various colors: a dark blue shape at the top left, a teal shape at the top right, a light blue shape in the middle left, a teal shape in the middle right, and a green shape at the bottom left. The text "WHO WE ARE" is centered in the upper half of the image, written in a bold, black, sans-serif font. The shapes appear to be part of a larger, abstract composition, possibly representing a stylized face or a network of connections.

WHO WE ARE

RenyLab believes that the best way to achieve quality is through experience. Thus, the two decades of research, associated with the knowledge we have on medical exams, accredit us to offer a wide variety of products with superior standard and high technical precision of production.

On the market since 1995, we offer for laboratories, clinics and hospitals complete product lines for carrying out several exams in endoscopy, microbiology, tolerance tests, hematology, ultrasound, among others, with quality proven by the Certification of Good Manufacturing Practices (BFP/GMP) from ANVISA and ISO 13485.

Discover our products and be part of the quality and precision universe in your medical and laboratory results.

# HEMATOLOGY

The line of hematological dyes has high fixation and staining capacity. The great sharpness and differentiation provided by dyeing are fundamental for the fast identification and accurate analysis of blood elements. This line also includes anticoagulants.
